

Convert PCs to thin clients. **Save \$\$** and headaches

...With **2X ThinClientServer**

**Centrally manage user connections, thin client devices and convert PCs to thin clients**

2X ThinClientServer makes the move to thin client computing easy by delivering a solution to convert existing PC's to thin clients and centrally manage thin client devices from any vendor (HP, Neoware, Wyse, Maxspeed and more).

User's connection and a device hardware settings (RDP / ICA / NX, screen size, Applications that users have access to, Terminal Servers and VMware virtual desktops) can be controlled centrally by a device, user, group or department (Active Directory / Local Accounts) via the web-based interface.

2X ThinClientServer Enterprise edition includes 2X technical support as opposed to the free 2X ThinClientServer Free edition whereas support is available via the 2X Forums.

**2X ThinClientServer key features:**

- ❖ Converting existing PCs to thin clients
- ❖ Manage users' connection settings centrally by user, group or department
- ❖ Limit users to Citrix or 2X published applications rather than giving access to a whole desktop
- ❖ Thin client vendor independent: Manage any thin client / PC centrally
- ❖ Supports virtually all thin clients and computer hardware
- ❖ Run Citrix and 2X published applications on the same desktop
- ❖ Multiple full desktops per ThinClient
- ❖ Support for 2X published desktops
- ❖ Support for printer and sound redirection in 2X published applications
- ❖ More hardware support with Linux kernel 2.6.18.2
- ❖ Hotplugging engine support
- ❖ Improved 2X managed desktop look and feel
- ❖ ThinClient autologin support
- ❖ ThinClient shadowing support
- ❖ User and Client Usage reporting tools
- ❖ ThinClientOS diagnostic tools
- ❖ Automatic update notification
- ❖ Boot clients via PXE, Harddisk, CDROM or USB
- ❖ Automatic Redundancy
- ❖ Windows 2008 ready

**2X ThinClientServer Screen shots:**

Thin client vendor independent

Limit user access to Citrix or 2X published applications

Manage user's connection settings centrally

Supports local media and printers

... Go thin and win with **2X**
